- R. Rayner
- Murray Ray
- Harrisons
- S. Moore
- Wickham
- K. Sagers (Smeulders Janssen)

## Introduction

Due to running my own business and a busy work schedule I have decided to reduce the amount of stock birds in my loft. I give you the opportunity to purchase some of my best foundation birds that I have kept over the past 40 years. These families consist of:

- R. Rayner
- Murray Ray
- Harrisons
- S. Moore
- Wickham
- K. Saggars (Smeulders Janssen)

Over the years I have found by crossing these families of birds together have created birds that can take plenty of hard work and keep coming home in hard conditions. These birds have a strong constitution, they have not picked up any of the viruses that have hit Australia.

Due to work commitments I didn't race for a few years. I still bred in those years whilst not racing so I didn't lose the bloodlines. I had no rings during some breeding seasons so I used whatever rings I had. This is why some birds are unringed. The bloodlines will speak for themselves.

All the best,  
Frank Velluto
